

BORIS N'KUAKO

Software Engineer

nkuako.boris@gmail.com | 06 51 04 46 95

Professional Experience

With over 3 years of experience in high-growth scale-up environments, I design scalable React/TypeScript architectures that balance technical performance with product vision. My focus: transforming complex business logic into radically simple and intuitive user interfaces.

Expériences Professionnelles

Software Engineer | Independent

Paris, France - Sept. 2025 – Present

- Full-stack Engineering (React, TS, Next.js): End-to-end development of a SaaS product suite, including a shopping-focused Chrome Extension and a Zod schema visualizer.
- Product Strategy & Growth (AI-Native): Leveraged AI agents for social platform analysis to identify user needs and implemented feedback loops via Notion to drive iterative feature development.

Software Engineer | Propershot / Diffusely (ex Meero)

Paris, France — June 2022 – July 2025

- AI-Driven Product Innovation:
 - Virtual Staging: Developed AI-powered features for dynamic room modification (wall colors, flooring, exterior landscaping/pools).
 - Immersive Video: Integrated an automated video tour generation module based on agent photo albums.
 - Content Automation: Built an AI ad generator merging LLM data with user input to produce optimized property descriptions.
- Core Product Optimization:
 - Led the complete redesign of the user onboarding flow and enhanced the core image editor interface.
 - Impact: Accelerated organic growth and improved property valuation, maximizing click-through rates and views on real estate platforms.
- Cross-functional Collaboration: Partnered closely with Product and Stakeholders (Design, Cloud, Brand, etc.) to prioritize roadmap features and ensure alignment with strategic business goals.

Frontend Developer | Decathlon

March 2022 – April 2022

- UI Expertise & Design Systems: Translated complex mockups into pixel-perfect HTML/CSS interfaces, ensuring strict adherence to visual standards and graphic guidelines.
- Scalable Component Development: Built and maintained reusable components within the corporate Design System to accelerate production cycles and ensure cross-platform consistency.

Technical Skills

Core Tech Stack

JavaScript (ES6+), React, Next.js, TypeScript, HTML5, CSS, Tailwind, Styled-Components

Business Logic & State Management

React Query, ZOD, Zustand, Context API, Redux, SWR, GraphQL

Architecture & Quality

Clean Code, SOLID, DDD, TDD, CI/CD, Design Patterns

AI & Agents

Openai, Claude, Langchain, RAG, Ollama, prompt engineering

Data Analytics & Marketing

Segment, Mixpanel

Monitoring & Observability

Sentry, Datadog

Education

- Fullstack Developer (Ruby/JS) | 2021 : The Hacking Project
- Bachelor's Degree in Audiovisual Engineering | 2012 : ESRA

Langues

- Français : Langue Maternelle
- Anglais : Professionnel
